

# COLOR CODED LUBRICATION MANAGEMENT

REDUCE CONTAMINATION • IMPROVE WORKPLACES • INCREASE PRODUCTION • KEEP BEST PRACTICE

For over two decades, the OilSafe System has been the preferred oil transfer management system for leading companies around the world.

People often go to great lengths to preserve the quality of oil, only to contaminate it by using filthy containers, pouring it through a dirty funnel, or inadvertently mixing it with different oil.

The OilSafe system is a fully sealing unit that prevents contaminants from getting into the oil. The pour spouts make dispensing quick and easy, and are available in 10 different colors that help prevent cross contamination.

**AVAILABLE IN 10 COLORS**

**Tan / Beige**

**Black**

**Blue**

**Dark Green**

**Gray**

**Mid Green**

**Orange**

**Purple**

**Red**

**Yellow**

OilSafe down-stroke pump delivers 1 liter with approx. 12 strokes

Bright colors makes it easy to color code lubricants, and even easier to find OilSafe dispensers

See through drums with graduated markings in both Metric liters and US quarts make it easy to see and measure levels

Fully interchangeable drums and lids, any style lid works with any size drum

Quick twist spout is easy to open/close—controlling flow and keeping dirt out

Push button auto shutoff air intake enables smooth pouring of lubricants

Robust lid design for easier handling

**WARNING:** Not suitable for use with fuels or solvents.

# TRANSFER DRUMS, PUMPS, & LIDS

## BASIC HAND PUMP

A lightweight hand pump with attached 5' hose and no-drip tip, handling fluids up to ISO 460.

Basic Pump 102900

## STANDARD PUMP

This standard option delivers 1L for approx. 12 strokes. Supplied with a 5ft outlet hose and anti-drip nozzle, handling fluids up to ISO 460. Match with an OilSafe Utility Lid/Drum.

Standard Pump 102000

Attach quick disconnects to the accessory port. (not included)

## PREMIUM PUMP

A heavy duty, color coded, fully servicable pump. Contains an accessory port and an ergonomic D-handle grip; pair with a matching Utility Lid and OilSafe drum. Designed to handle fluids up to ISO 680. Explore a wide range of optional accessories (*sold separately*).

|            |        |           |        |
|------------|--------|-----------|--------|
| Beige      | 102300 | Mid Green | 102305 |
| Black      | 102301 | Orange    | 102306 |
| Blue       | 102302 | Purple    | 102307 |
| Dark Green | 102303 | Red       | 102308 |
| Gray       | 102304 | Yellow    | 102309 |

## BATTERY OPERATED PUMP

A rechargeable, 18v Li-Ion Battery Pump. Handles up to ISO 680 oils at flow rates of 1.5 GPM+, and works with 5 Gal. Pails and OilSafe 5/10L drums.

(Oils) 5 Gal. Pails/OS Drums FFBP20-K  
(Oils) 16 to 55 Gal. Drums FFBP60-K

Unscrew the Utility Lid cap to attach a pump of your choice and draw from a drum.

## UTILITY LID

This multipurpose lid with a 2" outlet hole controls fast pours. Store or draw from pre-filled drums with ease; a great alternative to handling bulky 5 Gal. pails. Match with an OilSafe drum for use with an oil pump.

|            |        |           |        |
|------------|--------|-----------|--------|
| Beige      | 100200 | Mid Green | 100205 |
| Black      | 100201 | Orange    | 100206 |
| Blue       | 100202 | Purple    | 100207 |
| Dark Green | 100203 | Red       | 100208 |
| Gray       | 100204 | Yellow    | 100209 |

## STRETCH SPOUT LID

Ideal for low viscosity oil (<ISO 220) precision pours in difficult areas; Spout opens 0.5" (12mm).

|            |        |           |        |
|------------|--------|-----------|--------|
| Beige      | 100300 | Mid Green | 100305 |
| Black      | 100301 | Orange    | 100306 |
| Blue       | 100302 | Purple    | 100307 |
| Dark Green | 100303 | Red       | 100308 |
| Gray       | 100304 | Yellow    | 100309 |

Stretch Spout Extension Hose 12" 102020

## MINI SPOUT LID

A narrow spout ideal for precise lubrication filling. Outlet diameter approx. 0.25" (7mm).

|            |        |           |        |
|------------|--------|-----------|--------|
| Beige      | 100400 | Mid Green | 100405 |
| Black      | 100401 | Orange    | 100406 |
| Blue       | 100402 | Purple    | 100407 |
| Dark Green | 100403 | Red       | 100408 |
| Gray       | 100404 | Yellow    | 100409 |

## COMPATIBILITY:

Drums and lids are HDPE with Buna seals. Other seals available.

## STARTER KIT

5 different OilSafe lids, 5 OilSafe drums, 2 lid spout extensions and a standard pump.

Starter Kit FF0010

## DRUMS

Fully interchangeable with all lids in the OilSafe system. Measured with metric/quart markings.

|                   |        |
|-------------------|--------|
| 3 Liter/US Quart  | 101003 |
| 5 Liter/US Quart  | 101005 |
| 10 Liter/US Quart | 101010 |

## STUMPY SPOUT LID

Delivers a higher lubricant flow with a wide spout (1 1/2". 2.5cm). Extension hose available.

|            |        |           |        |
|------------|--------|-----------|--------|
| Beige      | 100300 | Mid Green | 100305 |
| Black      | 100301 | Orange    | 100306 |
| Blue       | 100302 | Purple    | 100307 |
| Dark Green | 100303 | Red       | 100308 |
| Gray       | 100304 | Yellow    | 100309 |

Stumpy Spout Extension Hose 9" 102021

## STORAGE LID

Store/transport pre-filled drums with this lid; A great alternative to handling bulky 5 gal. pails.

|            |        |           |        |
|------------|--------|-----------|--------|
| Beige      | 100100 | Mid Green | 100105 |
| Black      | 100101 | Orange    | 100106 |
| Blue       | 100102 | Purple    | 100107 |
| Dark Green | 100103 | Red       | 100108 |
| Gray       | 100104 | Yellow    | 100109 |

## PORTABLE + STATIONARY FILTRATION UNITS

Best in class filtration units for stationary and portable transfer applications. Most items can be 100% customized to suit your filtration needs. Choose from a wide range of units for typical applications such as transferring oils, collecting oil samples for analysis, pre-filtering new oils, filtering contaminated systems, dispensing new oils, flushing new/ repaired systems, and much more.

Explore customized filtration solutions, including:

- Drum Filter Carts
- Drum Toppers
- Filter Paks
- Filter Carts
- Panel Units
- Steel Tote Carts
- Tandem Filter Carts
- Platform Carts

## OILSAFE BULK SYSTEMS

OilSafe Bulk Systems are the highest quality and most feature rich lubricant storage and dispensing systems available. An OilSafe bulk storage system will enable you to take immediate control over your lubrication workflow process and get your lubricant storage areas and practices clean, efficient, and compliant.

The two main systems are the **Advanced** and the **Lubrication Work Center**. Each can be configured to meet your specific workplace requirements. Additional secondary systems are available to supplement lube management either in the field or in other areas of the workplace.

## CUSTOM SOLUTIONS

When your business is aiming to not only meet, but *exceed* industry standards, a custom solution can be just what you're looking for.

Work closely with a **ForFluids representative** to build systems that are tailored to your day-to-day needs. You can feel confident whether creating a configuration for specific filtration purposes, or setting up an entire site where you can establish a safe and efficient base of operations for managing lubricants.

Customization is available for **Bulk Systems, Lubrication Storage Rooms, Filtration Units**, and more.
